Dear Sir:

Applicant respectfully requests a Suspension of Action of the present status of the above-referenced application.

Applicant would like a period of suspension of *six (6) months* since Applicant's attorney and possibly the inventor wish to conduct an in person interview of the case and are not located in the United States. To allow the parties and the examiner (who may be off site) to find an available time to meet requires suspension of examination. A further office action may be avoided by such an interview.

Respectfully submitted,
